SUMMARY

Full Stack Developer with 4 years of experience building scalable web applications using the MERN stack. Strong in backend development, API integrations, and cloud deployment. Focused on writing clean, maintainable code and designing reliable systems.

TECHNICAL SKILLS

Frontend: React.js, Angular, Redux, Next.js, Material UI, Tailwind

Backend: Node.js, Express.js, PHP, Django

Languages: JavaScript, TypeScript, Python

Databases: MongoDB, Cosmos DB, PostgreSQL, MySQL

Cloud & Tools: Azure, Docker, AWS

EXPERIENCE

Software Developer

Ranucle Pvt. Ltd.

Oct 2024 – Present

Ahmedabad

- Developed and enhanced features in Angular, PHP, and MERN stack applications, improving UI/UX and overall performance.
- Built backend systems from scratch using Node.js and PostgreSQL with a focus on scalability and clean architecture.
- Integrated Zoho APIs with backend services to automate business workflows and improve operational efficiency.
- Designed and implemented RESTful APIs for web and mobile applications, ensuring smooth cross-platform integration.
- Mentored a junior developer on frontend tasks, improving team productivity and code quality.
- Built an LLM-powered PDF Q&A system using vector search, enabling users to query documents with contextual responses.
- Owned end-to-end feature delivery, contributing across backend and frontend as needed.
- Created and maintained API documentation using Swagger for better collaboration across teams.

Full-stack Developer

Sigitek Software Service

Aug 2022 – Sep 2024

Hyderabad (Remote)

- Led development of a MERN stack product from scratch, contributing ~90% of the implementation and core architecture.
- Designed scalable backend architecture to handle high-volume API requests with reliability and security.
- Integrated SAP APIs to enable seamless data exchange between enterprise systems.
- Deployed applications on Azure App Services and developed Azure Function Apps for automating workflows.
- Containerized applications using Docker to ensure consistent deployment across environments.
- Improved system performance, reducing response time by ~30%.
- Followed coding standards and mentored 2 junior developers on best practices.

Associate Developer

IndiCrop

Jun 2021 – Jul 2022

Noida

- Built user-friendly interfaces by collaborating with UI/UX designers and developing React components.
- Worked with Redux for state management in React applications.
- Identified and fixed bugs to improve application stability and performance.

EDUCATION

Bachelor of Computer Applications

2018 – 2021

Mangalore University
